

# HELPFUL INFORMATION

A variety of resources to help you choose, install, and maintain your Buildland patio kit

To support the information provided in this brochure, we also have a variety of information guides available on our website which contain more detail about our products, laying guidelines, and maintenance advice.

[www.buildland.com](http://www.buildland.com)

## TECHNICAL GUIDE

Our technical guide provides detailed information about Buildland products including weights, sizes, colour variations, and wet/dry comparisons for each product. It also contains a comprehensive selection of laying patterns for many of our products.

## MAINTENANCE AND LAYING GUIDE

Includes our step by step laying guide for natural stone and porcelain, top do's and don'ts for installing your patio and advice on how to keep your Buildland patio looking its very best.

## TROUBLESHOOTING GUIDE

Our troubleshooting guide offers detailed advice and information about identifying various natural occurrences and installation issues when using our products.

---

## LAYING PATTERNS

There is a small selection of laying patterns available on our website. Our online library of laying patterns contains a variety of different options for our products. Please note that all measurements are approximate only, and all laying patterns may or may not include joints.

Pack size information for each product is outlined on the product pages throughout this brochure as well as on product pages on our website. For further technical information on our products, please visit our helpful guides page on our website, or call our customer service head office on 01527 519 444.
